

REDEFINING PACKAGING

WWW.AGPOLYPACKS.COM

ABOUT US

AG Poly Packs is a leading provider of innovative packaging solutions with over three decades of experience. We serve a diverse range of industries, including Beauty & Personal Care, Home & Household Products, Pharmaceuticals & Healthcare, and Food & Beverage. With a loyal customer base exceeding 4,500 brands, we have built a strong reputation for delivering high-quality, customized packaging that meets the unique demands of each sector.

COMPREHENSIVE MANUFACTURING CAPABILITIES

Our state-of-the-art manufacturing facilities, strategically located across India, are equipped with advanced machinery to deliver end-to-end packaging solutions. We offer a wide range of value-added services, including automatic labeling, hot foil stamping, heat transfer labeling, screen and pad printing, and shrink wrapping.

INNOVATION-DRIVEN APPROACH

We stay at the forefront of packaging innovation through continuous research and development. Our dedicated Innovation Centre facilitates concept development, 3D visualization, prototyping, and precision manufacturing, enabling us to create unique and visually appealing packaging solutions that help brands stand out in the market.

From the *Director's Desk*

Packaging has always been more than just a functional necessity; it is an integral part of a brand's identity and customer experience. At AG Poly Packs, we take immense pride in being the force behind the brands you see and use every day, even though we may not always be in the limelight. Our role is to ensure that every product we package reaches consumers with the highest standards of quality, functionality, and innovation.

With over three decades of experience, we see ourselves not just as manufacturers, but as partners in our clients' success stories. Our journey has been fueled by a passion for excellence, a drive for sustainability, and a commitment to pushing the boundaries of packaging innovation.

As pioneers in the industry, our focus remains steadfast on delivering quality, functionality, and customization that align with our customers' aspirations. We believe that packaging is not just about containing a product; it's about creating a lasting impression.

Nothing gives us more satisfaction than bringing our clients' visions to life through cutting-edge, high-quality packaging solutions. We are excited about the future and look forward to continuing our journey of excellence with you.

CORE VALUES

CUSTOMER FIRST

We prioritize our customers in everything we do. Their needs, satisfaction, and success drive our decisions and actions, ensuring we deliver high-quality products, services, and experiences.

GROWTH People / Business / Associates

We are committed to continuous growth-expanding our business, nurturing our people, and creating value for all external associates. We believe in learning, evolving, and pushing boundaries to achieve long-term success.

INNOVATION

At AG Group, innovation is in our DNA. We embrace new ideas, invest in cutting-edge solutions, and challenge the status quo to stay ahead in a competitive and ever-changing world.

SAFETY

We are unwavering in our commitment to safety. We ensure that our manufacturing plants provide safe working conditions for all employees. By adhering to the highest safety standards, we protect the well-being of our team and uphold the sustainable success of our operations.

ETHICAL DEALING

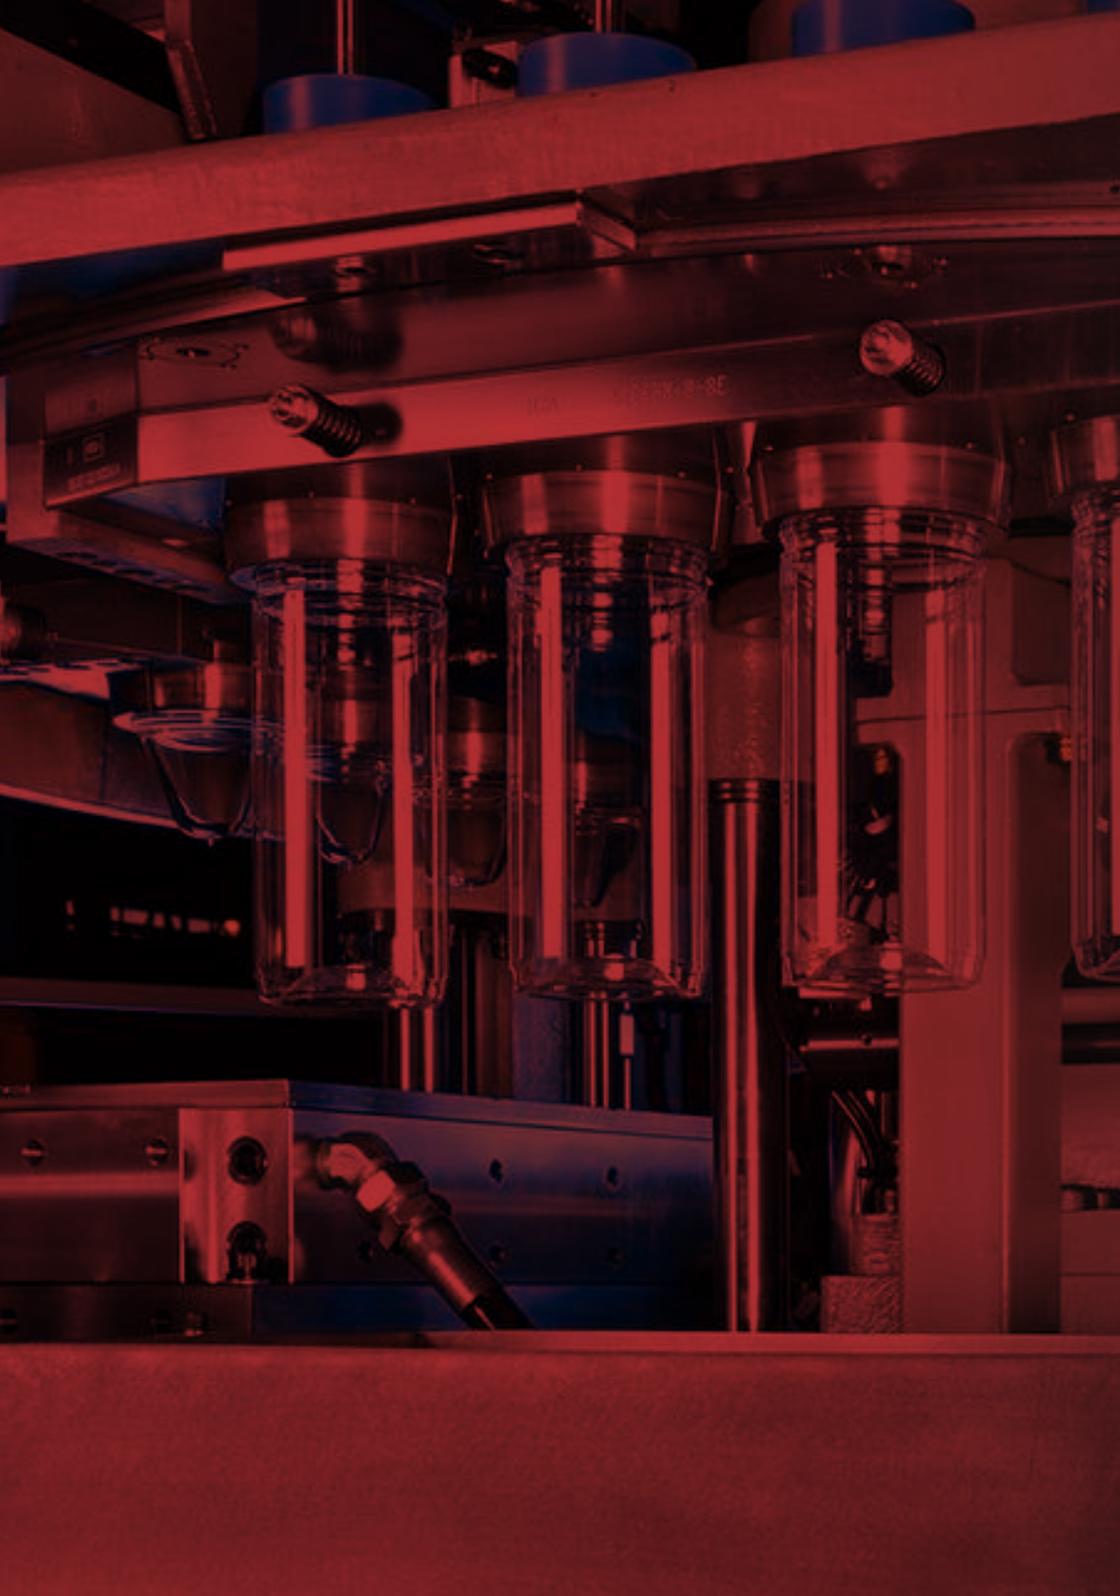

Integrity and transparency are at the heart of our business. We conduct all our operations with honesty, fairness, and accountability, fostering trust with our customers, employees, and associates.

RESPECT

We value diversity and treat everyone with dignity and fairness. By fostering an environment of mutual respect, we encourage open communication, collaboration, and inclusivity within our teams.

AGILITY

Agility is central to our approach at AG Group. In a fast-moving business environment, we respond swiftly to challenges, seize new opportunities, and remain flexible in our strategies to ensure sustained success.

MANUFACTURING CAPABILITIES

At AG Group, our manufacturing excellence is showcased through our four state-of-the-art facilities strategically located across India. Each facility is a beacon of innovation and efficiency, equipped with cutting-edge machinery from globally renowned manufacturers, enabling us to deliver unparalleled packaging solutions.

- **Injection Stretch Blow Molding (ISBM):** Our fleet includes 15 advanced **Nissei ASB machines**, renowned for their precision and versatility in producing complex bottle designs with superior clarity and strength.
- **Injection Blow Molding (IBM):** We operate 6 state-of-the-art **IBM machines** from Victor, enabling the production of high-quality, intricate packaging solutions with exceptional efficiency.
- **Injection Molding (IM):** Our facilities boast 54 high-performance **Milacron injection molding machines**, ranging from 80 to 280 tons, allowing for the creation of a diverse array of components with remarkable precision and consistency.
- **Extrusion Blow Molding (EBM):** With 35 **EBM machines** capable of producing containers from **500 ml to 5000 ml**, we cater to a wide spectrum of packaging requirements, ensuring durability and design excellence.
- **Tube Manufacturing:** Our Himachal Pradesh facility is equipped with 2 cutting-edge **AISA machines**, specializing in the production of high-quality laminated tubes, meeting the stringent standards of the pharmaceutical and cosmetic industries.

This robust and diverse machinery portfolio empowers AG Group to deliver innovative, high-quality packaging solutions tailored to the unique needs of our clients across various industries.

- **World-Class Pump Manufacturing Facility:** Our dedicated unit specializes in producing a diverse range of high-quality pumps, including **lotion pumps** and **mist sprayers**, meeting the stringent demands of various industries.
- **In-House Printing Facility:** Equipped with **automatic labeling**, **screen**, and **pad printing** technologies, we offer vibrant, durable, and customizable designs that align with our clients' brand identities, ensuring rapid and precise decoration.
- **In-House Mould Room & Innovation Centre:** Our skilled engineers and designers collaborate to conceptualize, design, and fabricate precise moulds tailored to specific product requirements, fostering innovation and accelerating prototype development.
- **In-House Shrink Sleeving and Automatic Foil Stamping Facilities:** Specializing in applying shrink sleeves that conform seamlessly to various container shapes, and utilizing automatic **foil stamping** with metallic and holographic foils, we enhance both the visual appeal and security of products through 360-degree branding opportunities.
- **UV Printing:** Our facility is equipped with advanced **UV printing** technology, enabling high-quality, durable prints with superior color vibrancy, further enhancing product aesthetics and brand presence.

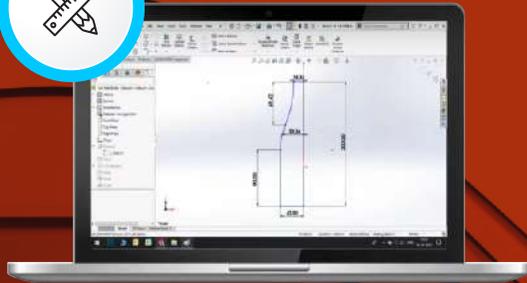

QUALITY CERTIFICATION

the fulcrum of our working

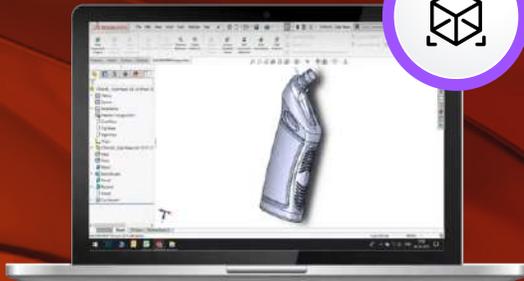

As an ISO-certified organization (**ISO-18001:2007, ISO-14001:2004, and ISO-9001:2008**), we are committed to upholding the highest standards of quality, safety, and environmental responsibility. Our comprehensive quality assurance processes ensure that every product consistently meets and exceeds industry benchmarks and client expectations. Furthermore, our certifications under **BRCGS Issue 6** and **EcoVadis** reflect our unwavering dedication to sustainability, ethical practices, and delivering exceptional value. These accolades underscore our pursuit of excellence across all facets of our operations.

NEW PRODUCT DEVELOPMENT & INNOVATION

At AG Group, innovation is the cornerstone of our success, driving us to continually develop cutting-edge packaging solutions that meet the evolving needs of our clients. Our dedicated Innovation Centre in Ghaziabad serves as the hub for our research and development activities, where creativity and technology converge to transform ideas into tangible products.

OUR INNOVATION PROCESS

- **Conceptualization:** We begin by engaging with clients to understand their unique requirements, discussing aesthetics, functionality, and technical specifications to conceptualize bespoke packaging solutions.
- **Design and Prototyping:** Our skilled design team creates detailed sketches and 3D animations, bringing concepts to life. Utilizing advanced 3D printing technology, we develop prototypes that allow for thorough evaluation and refinement.
- **Validation and Production:** Following rigorous design reviews and verifications, we proceed to mold development and production, ensuring that each product meets the highest standards of quality and performance.

This structured approach enables AG Group to deliver innovative, high-quality packaging solutions tailored to the specific needs of our clients across various industries.

SUSTAINABILITY

At AG Group, sustainability is a fundamental aspect of our mission, guiding our operations and corporate ethos. We are dedicated to minimizing our environmental footprint through innovative practices and responsible resource management.

ENVIRONMENTAL STEWARDSHIP

- **Utilization of Post-Consumer Recycled (PCR) Materials:** We actively incorporate PCR plastics into our production processes, reducing reliance on virgin materials and promoting circular economy principles.
- **Plastic Reprocessing:** By reclaiming and regrinding plastic pellets, we efficiently recycle production waste, ensuring material reuse and minimizing landfill contributions.
- **Renewable Energy Adoption:** Our facilities are equipped with 600 KVA solar power generation systems, significantly decreasing our dependence on non-renewable energy sources and lowering carbon emissions.
- **Water Conservation Initiatives:** We have implemented a zero-water-waste policy by recycling water within our operations and utilizing a harvesting pit, thereby conserving this vital resource.

COMMITMENT TO ESG AND GLOBAL STANDARDS

- **Robust ESG Compliance:** We adhere to stringent Environmental, Social, and Governance (ESG) standards, encompassing comprehensive fire safety measures and rigorous worker protection protocols within our plants.

Alignment with UN Sustainable Development Goals (SDGs): Our strategies and actions are in harmony with several United Nations SDGs, reflecting our dedication to fostering a sustainable and equitable global community.
